

THINK DIFFERENT, THINK WIRELESS !

▶ LONG DISTANCE TRANSMISSION AND COMMAND POSSIBLE VIA YOUR CONTROLLER

▶ ADVANTAGES

1 - SAVINGS :

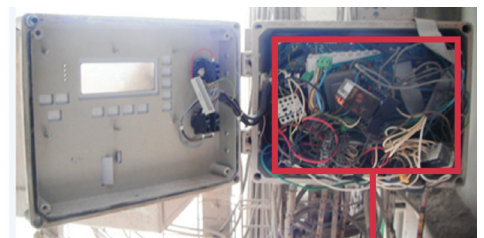

- **COST REDUCTIONS** : elimination of cables, cable trays, trenches.
- **REDUCTION OF THE INSTALLATION TIME**: fast connection to the existing network.
- **SCALABLE SYSTEM** : possibility to extend the existing MACSYS Wireless installation without any modification.
- **A SINGLE CONTROL PANEL** for 128 Wireless devices.

2 - RELIABILITY :

- **NO RISK OF DISFUNCTIONMENT** link to the damaging of the cables or to burned or cut solenoid valves.
- **CONTROL PANEL PROTECTED** in the control room or in the electrical room.

SAY NO !

SAY NO !

3 - MAINTENANCE :

- **REMOTE CONTROL & CONTROL PANEL** to remotely control the firing sequences + diagnosis of any breakdown.
- **COMMON SPARE PARTS** to the AIRCHOC® and to the MACSYS.
